Re: **D-PAS Terminal End-to-End Letter of Certification (“Letter”)**
Project ID: E2E_20210608_062935177

This letter confirms that the following D-Payment Application Specification (“D-PAS”) certification tests, identified in the Certification Request Form, as more fully described in the D-PAS Certification Manual, were executed successfully with the Terminals and host system operated by **Alhamrani Universal Company** supporting payment card acceptance on the Diners Club International (“DCI”) network.

D-Payment Application Specification (D-PAS) Terminal End-to-End Certification is the process used by DCI to confirm that the types of terminals that are supported by the Acquirer/Merchant as indicated below (“Terminals”) can accept [D-PAS card/contact/contactless] transactions operating on the DCI network (“D-PAS cards”) and that such Terminals have the ability to send and receive authorization requests and responses for D-PAS card transactions to and from the Acquirer/Merchant’s host and DCI. The test also confirms the capability of such Terminals to perform functions supporting chip card acceptance for D-PAS card transactions including support of fallback transactions and card verification methods supported by the Terminal.

The following waivers were granted as part of D-PAS Terminal End-to-End Certification:

Test Case Excluded/Waiver Description	Rationale	Waiver Reference Number
...	Issue: ... Comment:

Test cases assigned by DCI as a condition of D-PAS Terminal End-to-End Certification are listed in the Certification test cases communicated by DCI during the Certification process.

Service Information	
Certification Type	Initial Certification <input checked="" type="checkbox"/> Recertification <input type="checkbox"/>
If Recertification, reason for testing	
Reference to Project ID of the original D-PAS Certification (if applicable)	
Certification Scope	Contact <input checked="" type="checkbox"/> Contactless <input checked="" type="checkbox"/>
Form Factor	Contact <input checked="" type="checkbox"/> Contactless <input checked="" type="checkbox"/>
Terminal Manufacturer	Ingenico
Terminal Model	Move2500
Payment Application Software + Version Number	T3.EMV.Contact Version 09.04
D-PAS Terminal E2E Qualified Test Tool	FIME Savvi Test Platform
D-PAS Test Plan(s)	v1.3 – Contact v1.3 - Contactless
Service Provider	FIME

***CERTIFICATION CONDITIONS ***

General Conditions

End-to-End Terminal Certification tests validate that the system operated by the Acquirer/Merchant, its components and the Terminal types listed above had the ability, at the time of Certification, to support transactions with D-PAS cards. End-to-End Terminal Certification does not cover the internal operation or functional abilities of any systems, software or hardware operated by the Acquirer/Merchant including as necessary to support card acceptance and, as such, should not be implied or inferred. This Certification shall not limit or modify any other agreements between Acquirer/Merchant and DCI, the terms of which shall remain in full force and effect. The confidentiality obligations set forth in such agreements shall apply to this Letter and any related written and verbal communication.

Please contact your D-PAS Deployment Manager if any of the information in this Letter is incorrect.

Regards,

Diners Club International
